INTELLIGENT. EFFICIENT. ECONOMICAL.

Replace your pressure or suction cleaner with the new effortless choice for a sparkling clean pool.

NEW for 2020!

S100

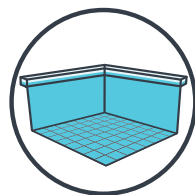

8X MORE ENERGY EFFICIENT

Sustainably designed and energy efficient. The Dolphin S100 consumes an average of 5 cents of energy per hour and is 8x more efficient than suction and pressure cleaners.

EXTEND THE LIFE OF YOUR POOL'S SYSTEM

Unlike suction and pressure cleaners, Dolphins are independent cleaning machines that do not rely on your pool pump or filter to work.

COMPLETE POOL COVERAGE

Suction and pressure cleaners use random patterns to clean the pool's surfaces, leaving areas missed. Dolphins use CleverClean™ Smart Navigation to ensure complete pool coverage.

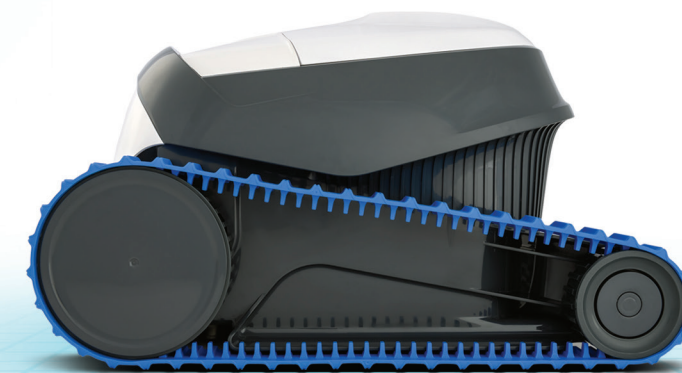

Ditch the Pump and Hose

No booster pump or extra hoses required. Simple, plug-and-play operation makes pool cleaning a breeze. Save time and energy with every pool cleaning, while extending the life of your pool's system.

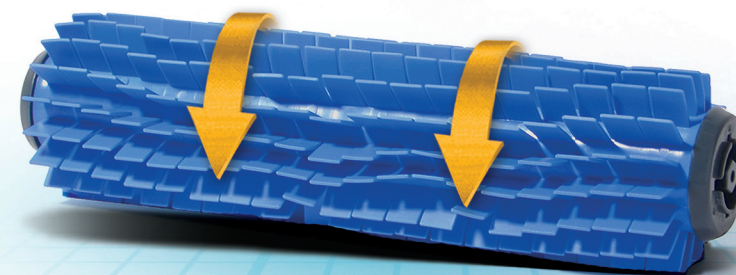

Smart and Efficient Clean

Complete pool coverage in a quick 2 hours. No random patterns with CleverClean™ Technology. This smart navigation systematically and efficiently cleans your pool without letting obstacles getting in the way. Set the weekly scheduler to automatically clean for you every day, every other day, or every 3rd day.

Dirt Doesn't Stand a Chance

Active brushing maximizes scrubbing power, removing algae, bacteria, and stuck-on-dirt from your pool's floor and walls for an optimal clean.

Give Your Pool Filter a Break

Extend your filter's life. Engineered with an independent filtration system, the large, top-loading filter basket removes and filters out fine and ultra-fine debris leaving your pool sparkling clean. No need to rely on your pool's main filter to get the job done.
